Malpractice procedure

This guidance is for centres on how to best prevent, investigate and deal with cases of suspected malpractice or maladministration.

CYQ will investigate instances of alleged or suspected malpractice and will take appropriate action to maintain the integrity of units and qualifications. **Malpractice** is defined as any deliberate activity, neglect, default or other practice that compromises:

- the integrity of the assessment process
- the integrity of the regulated qualification
- the validity of certificates
- the reputation or credibility of the awarding body
- the qualification, or the wider qualifications community

**Maladministration** is any activity, neglect, default or other practice that results in the centre not complying with the specified requirements for delivery of the units and qualifications.

CYQ, via its External Quality Assurance Strategy, will sample centres’ internal Malpractice/Maladministration policies and procedures, plus the ongoing implementation and review of these to check for compliance. This will be recorded on the EQA Risk Assessment Report.

CYQ reserves the right to withdraw centre approval in the event of an alleged or suspected occurrence of malpractice/maladministration arising on the part of learners, centre staff, or others involved in providing a CYQ qualification. In order to ensure that CYQ is kept fully informed, centres are responsible for the following:

- complying with published awarding body malpractice procedures
- taking reasonable steps to prevent malpractice/ maladministration from arising.
- advising candidates of the awarding body’s policy on malpractice/maladministration during their induction
- implementing systems and procedures for recording all suspected instances of candidate malpractice and making this information available to the awarding body during quality assurance activities on site and/or on request.
- being vigilant to possible instances of malpractice and maladministration.
- notifying the awarding body of any incidents of malpractice/maladministration as required by the awarding body policies.
- assisting with any awarding body requests for information.
- co-operating with awarding body malpractice/maladministration investigations.

**awarding excellence**
• carrying out investigations of malpractice under the guidance of the awarding body.
• implementing any actions required during and after investigation into a case of malpractice.
• taking action required to prevent the recurrence of malpractice/maladministration

CYQ wishes to advise centres that failure to comply with these requirements will impact on any future acceptance of registration entries and certification issue, and may result in centre approval being withdrawn.

1. **Examples of learner malpractice could include:**

   • non-compliance in observing the mandatory rules of conduct during an assessment, resulting in fraudulent claims for certification
   • replication of another learner’s work in either the practical, theoretical or portfolio aspect of assessment, resulting in fraudulent claims for certification (this can include plagiarism, collusion, personation, copying)
   • misconduct (learner behaviour such as offensive, obscene or discriminatory material; disruptive language or behavior causing a disturbance; use of unauthorized aids such as mobile phones, MP3 players etc)

   Where an issue of misconduct occurs and is discovered or reported the following action will be taken:

   • the Invigilator/Centre Contact is empowered to expel a learner from the assessment room
   • the expelled learner’s assessment paper must be securely retained and a report filed to the Centre Contact
   • the report and assessment record must be available for submission to CYQ and the regulatory authority (Ofqual) upon request
   • if any of the rules of external assessment are deemed to have been broken by a learner, Invigilator or other person involved in the assessment process, then CYQ may declare the assessment void

2. **Examples of centre malpractice could include:**

   • failure of the approved centre to report any suspected malpractice reported to CYQ from other sources
   • failure of the approved centre to apply the CYQ recommended invigilation procedures for external assessment, thus affecting the validity of the assessment process
   • failure of the approved centre to apply CYQ’s recommended assessment paperwork and procedures for internal assessment, thus affecting the validity of the assessment process

**awarding excellence**

Central YMCA Qualifications part of Central Young Men's Christian Association. Registered charity No. 213121. Limited company registered in England 119249.
Registered office: 112 Great Russell Street, London WC1B 3JQ. YMCA® is a trademark registered in Great Britain and Northern Ireland. ISO9001 accredited.
• failure of the centre to apply the CYQ recommended security procedures as identified within the Security Declaration Form
• failure on behalf of the centre to comply with CYQ/FAB guidance relating to reasonable adjustments
• claims for certification being submitted by the approved centre for units and/or qualifications that have not been approved for delivery by CYQ
• delivery and assessment of units and/or qualifications that have not been approved by CYQ
• claims for certification being submitted by the approved centre for learners that have not been registered with CYQ
• unauthorised replication of (or other tampering with) externally assessed theory papers and/or e-assessment
• payment for CYQ services/accreditation is not received in accordance with the terms and conditions of payment
• the centre or any part (if a consortium group) becomes bankrupt or insolvent or goes into liquidation, or undergoes a voluntary or compulsory winding up procedure
• there is any significant change in control of the centre (or a change of membership if a consortium group). CYQ must be informed immediately in this case

Malpractice procedures (centres)
Where an issue of malpractice occurs and is discovered or reported the following action will be taken:
• CYQ will investigate the suspected case of malpractice
• CYQ will report significant cases of malpractice automatically to the regulatory authorities (Ofqual) (and all other cases on request)
• CYQ will inform the regulatory authorities (Ofqual), whenever it finds evidence that certificates may be invalid
• CYQ will assist the regulatory authorities with any further investigations of malpractice, and agree appropriate remedial action if there is evidence that certificates may be invalid
• CYQ will withdraw approval from a centre that is proved guilty of malpractice and automatically refuse any further certificates or accept future registrations of learners

Malpractice investigations
• the objective of an investigation is to establish the facts relating to allegation/complaints in order to determine whether any irregularities have occurred
• all relevant evidence will be considered without bias
• CYQ will also investigate allegations made by whistle blowers and anonymous informants

Please note: allegations made by a whistleblower or anonymous informant must be made within 3 months of the alleged event taking place. This is to ensure the integrity of
any relevant evidence is protected as far as possible, to allow for the fullest investigation to take place

- investigations will be carried out by the CYQ Lead Quality Assurer, and they will liaise with the head of the centre or their nominee
- conclusions will be based on established evidence. A course of proposed actions will be identified, agreed, implemented and monitored

3. Withdrawal or suspension of approval

Centre approval may be suspended or withdrawn by CYQ at any time if the centre has not complied with the stated terms of agreement covering all policies, regulations, requirements and procedures which are currently in force and which have been agreed with the Centre Contact and/or guarantor signatory personnel.

Examples of non compliance which result in deficiencies in the assessment process and in inappropriate quality of assessment provision, will entitle CYQ to withdraw or suspend all or some of a centre’s activities for a specified period of time or indefinitely.

4. Temporary suspension

A temporary suspension will allow CYQ to suggest immediate remedial action and enable the centre to rectify the situation. Temporary suspension may also be implemented to protect current cohorts of learners if the centre is the subject of investigation. CYQ will discuss the problem with the centre and allow a reasonable period of notice (three months) within which to resolve the problem.

Please note: If centre approval is withdrawn CYQ will individually specify the earliest date for reapplication of approval. A fee will be incurred for re-approval.

In order to assist any current learners who may be affected by the suspension or withdrawal of approval, CYQ expect centres to inform those learners about completion of their unit or qualification within the specified timescale, and to offer reasonable support to assist their achievement.

Withdrawal or suspension will not affect any earlier certification claims. Any document or certificate that has been issued on the result of a voided assessment will be recalled and cancelled.

Centre sanctions - The EQA completes a risk report at each visit. This document provides detailed information on your current status and should be reviewed carefully. Guidance on examples of sanctions relating to differing levels of malpractice is provided in the Sanction Procedure guidance (see http://www.cyq.org.uk/files/sanction-procedure-for-non-compliance.pdf)

awarding excellence

Registered office: 112 Great Russell Street, London WC1B 3JQ. YMCA® is a trademark registered in Great Britain and Northern Ireland. ISO9001 accredited.
5. Provision for appeal

CYQ provides a formal route for appeal against a decision to suspend or withdraw centre approval and encourages its centres and learners to use the enquiry service provided to formally lodge such an appeal (please refer to the Appeals Procedures).

6. Notification to other awarding bodies

Ofqual (the regulatory authority) require that an awarding body notifies other awarding bodies of cases of malpractice where these cases are likely to impact on the other awarding body(s). In dealing with cases of malpractice each awarding body must pay due regard to this requirement and notify other awarding bodies, as appropriate. This will usually be appropriate where:

- the centre where the malpractice has occurred (or is suspected) is also approved with another awarding body (for the same or different qualifications) and the (suspected) malpractice could potentially impact on the activities undertaken on behalf of that other awarding body
- the centre where the malpractice has occurred (or is suspected) is also approved with another awarding body for the same qualifications and there is the potential for the centre to move their operations to the other awarding body in an attempt to avoid sanctions and continue sub-standard practices.
- the centre where the malpractice has occurred (or is suspected) has indicated that they are seeking approval with another awarding body (for the same or different qualifications).

Please contact CYQ if you require further guidance as to how to prevent, investigate and deal with malpractice and maladministration.
## Non-compliance monitoring guidelines - malpractice
